TOKENOMICS

Community Token UCT

We strive to build a strong community, with the following token core values and benefits:

With the acquisition of UCT, token owners automatically become members of our UnitedCrowd community. As such, they are entitled to participate in **Delegated Governance** and benefit in accordance with the decisions that the community makes through the governance system. Owners of the token are able to vote on proposed modifications in equal proportion to the amount of tokens they hold. Different **Community Rewards** are used to motivate users to join the platform and / or take advantage of future products and services. In addition, we distribute **Airdrop Tokens** to individuals, developers, companies or start-ups who are willing to create or promote interesting tools, services or dApps via UnitedCrowd. Furthermore, token owners are granted **Pre-sale Rights** for selected pre-sale tokens.

In addition, UnitedCrowd will implement a **Token Repurchase Program**. As part of this Token Repurchase Program, UCT will be bought back by UnitedCrowd on the market and held by the company in the **Collateral Pool** for further expansion of the community. 25% of the token sale proceeds and 10% of the monthly turnover are reserved for this.

We are continuously developing additional use cases to expand our community functions.
